Course Description

The term 'personality' implies the enduring characteristics and behaviour that comprise a person's unique adjustment to life, including major traits, interests, drives, values, self concept, abilities, and emotional patterns. The other word 'development' means the knowledge of how one is expected to maintain the socially and morally acceptable personality in today's modern world.

We have seen a steep rise in the demand of developing personality a great deal. But this course aims at developing student teachers' personality through Swami Vivekananda's ideas. Swamiji for this emphasized his "Be and Make" concept.

Without 'becoming', how can a teacher 'make'? The age-old dictum also evinces that modernity cannot survive without tradition. This is why this course is designed to help our student teachers develop an impressive personality with the help of Swami Vivekananda's sublime ideas which uphold the glorious stand of Bharat in the remote past. The relationship between guru (teacher) and sishya (disciple) is eternal. This once abounded in the personality of great sages of the past. At present, we want those mountaineering ideals back. For fulfilling that cherished objective, this course is designed.

Course Outcomes

After the completion of this course, the student teachers will be able
