CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

1. The College has very liberal policies to enable the pupil teachers to acquire varied learning experiences. Pupil teachers are allowed to attend all types of Workshops, Seminars, Talks and Conferences organized within the campus or in other institutions. To motivate them to participate in these programmes all sort of financial help is extended to them. College allows pupil-teachers to participate in different events and competitions to provide them varied learning experiences. 2. The campus life itself is a mine of value and spiritual learning which we may say that not directly connected with the curriculum. The college is surrounded by a galaxy of other educational institutions which always cater to the diverse need of the students through their various organized programmes attended by the trainees formally or informally. 3. Various projects, practical works and field works are directly related with the curriculum like Projects within the respective subjects of the student- teachers, for Project on a Museum or On Local History for the History Method students; School Study Project, Action Research Project, Inclusive Education Project and Guidance and Counselling Project. The trainees and students are to gather the required information by physical participation for the course related subjects and works. Thus they have ample scope for flexible and varied operational curriculum related learning experiences which the college considers as the complimentary knowledge bank for the formal curriculum transaction.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes, the practice teaching plans are developed cooperatively involving the school staff. First of all, the faculty members design the practice teaching plan in the meeting of the Teachers' Council. When the teacher educators and the trainees go to the practice teaching schools the school staff and mentor teachers of the respective schools assist them in framing the time table, in suggesting the syllabus for practice teaching, in supplying text books and teaching aids, if available. The number of student teachers per practice teaching schools is determined on the ratio of 3 student teachers per section or unit of a class. For example, if there is one section/ unit in each class from class V-IX in a school, 15 student teachers are allotted to that school. The method of allotment of the student teachers comprises of the following steps: ? First of all the number of trainees per method is calculated. ? Then the number of total units in the respective schools is determined. ? The graduate and post graduate student teachers are segregated subject wise to different schools. ? On the basis of above considerations it is tried to match the trainee with the need of the respective institutions. ? Regular consultation and feedback about the practice teaching are sought from the Headmaster by the College authority.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Formally the M.C. of Saradapitha, the G.B. of the college, Hostel committee, Teachers' Council, IQAC, BoS, AC, M.Phil. Committee, Ph.D./ Research Committee and informally different sub-committees take note of the functioning of the

college. In each meeting, the minutes and actions taken on the minutes of the previous meetings are discussed at length and developmental measures are suggested for overall improvement thereof. Sikshanamandira follows a democratic, rational, team based model of decision making where a high degree of transparency is maintained through and through. Since team based fundamentality is the corner stone of administrative practices in our college, decision making is delegated to the members of different committees at each level of activity. The decision making process is thus a consequence of collective team work and participatory administration. Valid information is available for the management through direct and personal contacts and informal but very much effective feedback mechanism inbuilt in the system by which internal coordination and monitoring are accomplished.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Two Best Institutional Practices: Title of the Practice: Green Initiative

Objectives of the Practice: "You can never have an impact on society if you have not changed yourself" opined by Nelson Mandela reverberates the progressive stance of human beings. So, change is the quintessence which we want to see in every sphere of our life. Therefore, the inculcation of green initiatives in Ramakrishna Mission Sikshanamandira reflects that change in our various endeavors to raise awareness and adopt 'Go Green' initiatives. This also ensures that we save our natural habitat from the clutches of various hazardous perils at the larger level. To that cherished objective, we aspire to move. The Context: Whenever we look at our modern society, we observe a massive decline in the awareness of common people regarding environmental issues. It remains missing in our daily context. But stealthily nature is forcing us to embrace unexpected natural hazards willy-nilly. This has just taken place rampantly due to our indiscriminate deforestation, destruction of nature at the expense of cramped urbanization and sundry other petty motives to exploit nature. This has wreaked havoc on our bio-diversity, which in turn interrogates our so-called institutional education at large. Hence, we at Sikshanamandira strive to attenuate the ever-increasing unconsciousness and inhumane attitude towards mother nature and engage our different stakeholders in adopting green initiatives as much as possible. The Practice: Round the academic year, we adopt such an initiative through different modes. They are generally maneuvered through curricular and co-curricular activities, on campus initiatives and extension activities. An elucidation of these activities is furthered below.

Curricular and Co-Curricular Activities: Under the curricular dimension, we assign our students different projects on environmental issues to zero in on the flora and fauna, biodiversity indexing and species richness. Students are

encouraged to take these projects with sufficient zeal. Under the co-curricular activities, organization of different seminars and workshops, observance of earth day, ocean day and water day are conducted every year. This has helped us spread awareness among our different stakeholders. Some of the pictures of observing different days have been added below to ensure that we really comply with our stated green initiatives. River Day: Environment Day: Earth Day: On-Campus Initiatives: We at Sikshanamandira keep abreast of many on-campus initiatives. This like the curricular and co-curricular activities also bears testimony to our endeavor to retain our campus verdant. Some of them are enumerated below. We have been maintaining a very rich and diversified built-in green area within the confines of our campus. Regarding waste management, we have such a system that we can easily segregate the solid waste of biodegradable at the first level. For handling liquid waste management, we have an interconnected drainage system within our campus. This drainage system is properly manhandled by our staff in order to prevent it from having unnecessary blockages or accumulation of stinking water. We have also been perpetuating our practice of recycling the biodegradable items. For this, we have soak-pits where we throw vegetable ends, cow-dung, leaf litter and kitchen waste. Although Sikshanamandira is situated very close to the river Ganga, we have also constructed blocks for rainwater harvesting. This is purposefully done for gardening. The utilization of renewable sources of energy is evident in maintaining rooftop solar panels in our hostel, which cuts short our excessive consumption of electricity. These solar panels are used for providing hostellers with hot water throughout the year. We at Sikshanamandira maintain a herbarium where many medicinal plants have been planted. To reduce the consumption of electricity in our campus, we have switched to LED bulbs and LED tube lights. To preserve the quality of soil in our campus, we prioritize the use of manure and biofertilizers over chemical fertilizers. This in the long run ensures a sustainable development. Thus, with the help of the aforesaid on-campus initiatives, it is still possible for us to hold a miniature form of forestation amidst urbanization. That, too, succinctly paints our campus green. Extension Activities: Among the extension activities, we hold our arrangements for sapling distribution in collaboration with Howrah Joutha Parivesh Mancha and some organizations of North 24 parganas every year. Besides, awareness camps are also organized to increase sentience among the common men to embrace the axiomatic truth- 'one tree, one life'. To contribute to the essence of sustainable development, we also organize awareness camps for sewage workers. Through holding these camps, we attempt to instill in them a sense of maintaining proper health and hygiene. Both the intrinsic and extrinsic hygiene are inevitable to maintain equilibrium in our nature. In addition to these, we have also been maintaining a kitchen garden in our campus. The produced vegetables are basically used for catering to the needs of our daily use in cooking for the dwellers of our hostel. One captivating quality that Sikshanamandira possesses is its ceaseless services to the different avian species. To metamorphose our abstract relation into a concrete one with the avian world, we cultivate sunflowers whose yellowish presence in summer enthalls the attention of different types of birds. We receive their footfalls in legions. We also provide water and shelter to the thirsty animals during summer in order to protect them from the scorching sun rays. Evidence of Success: It is true that a good habit is always hard to perpetuate. But once exercised properly, it retains its existence forever. With these initiatives, we have been successful in conveying our message to our surrounding areas that retaining greeneries is our responsibility. In the long run, ideas only live. Therefore, many small agencies looking after environmental concerns have adopted our green initiative policies to ameliorate the present condition of greenless urbanization infested with narrow motives. Problems Encountered and Resources Required: While we work on environmental issues at the larger level, we face unresponsive behavior of many as if they did not belong to our world.

Many found these issues disparaging. To convince others of these seminal issues is definitely a herculean task for us. In order to work on these issues at the larger level, we need financial aid to augment our endeavors.

1. Title of the Practice: Robust Infrastructure

2. Objective of the Practice: The term 'infrastructure' itself connotes the meaning of a pedestal onto which the entire system is contingent. In terms of academics, we come to mean by the word 'infrastructure' both the physical and digital components of an institute. Therefore, outwardly the infrastructural setup of an institution serves many purposes of our student teachers. However, to provide our stakeholders with the best quality of infrastructure, we are dedicated to keeping it robust.

3. The Context: In the age of unprecedented technological progress, keeping an updated infrastructure is a challenge to any academic institution. Since the ambience of an environment affects our cognition, practice and attitude, we at Sikshanamandira are committed to upholding the state-of-the-art infrastructure before our student teachers. If we break the word 'Sikshanamandira', we find that two morphemes come out - 'sikshan' and 'mandira'. Therefore, learning-teaching takes place in a temple (mandira). We have ascribed the status of a temple to our college where learning and teaching are worshiped. In this particular context driven by the ideologies of Swami Vivekananda, we at Sikshanamandira aspire to facilitate learning and teaching within a robust infrastructure.

4. The Practice: To delineate our infrastructure in concrete terms, we split it into two parts. They are physical and digital. Under these two dimensions, further elaboration of each is discussed below.

Physical Infrastructure: We have ICT enabled classrooms in Sikshanamandira. Each room has a computer, speaker, mike and overhead projectors. In our college, all method subjects have separate resource rooms which are rich in nature. We have a state-of-the-art language laboratory with many modern apparatuses. We have a resourceful psychology lab. Sikshanamandira possesses a computer lab which currently has 250 computers. This lab is used for holding different government competitive exams in CBT mode. We have a computer kiosk which serves the needs of our student teachers 24x7 hours. We have a common library on the first floor and J.J. Goodwin research library on the third floor. Our general library is RFID enabled. It also has an auto issue return system. We at Sikshanamandira provide our research scholars with well furnished rooms. Besides, all these rooms have high speed internet enabled computers. We have an exquisite conference room with the latest technological gizmos. Our Nivedita Conference room serves the purpose of holding different international and national seminars, workshops. We have separate cubicles for our faculty members with personal computers and high-speed internet. Since our educational system is residential, we have a hostel for our student teachers within the close precinct of our college. We have a gymnasium with updated machines. We have an airconditioned study zone adjacent to our general library on the first floor. We have a virtual classroom which is rapidly utilized for imparting teacher education in order to reflect the objectives embedded in NMEICT.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The guiding principle of our College is the ideal of education as enunciated by Swami Vivekananda, the inspirational and dynamic disciple of Sri Ramakrishna, with its emphasis on 'man-making and character-building assimilation of ideas'

and 'the manifestation of the perfection already in man'. Swamiji envisioned a residential system of education where teachers and trainees would meet on a common platform of shared ethos and where education would be a joyous activity no less than a potent instrument of inner transformation. If we are to point out the distinctive features of our College, we would certainly stress its completely residential character, its tranquil and soothing environs, the sustained level of its excellence in academic as well as extra- academic activities, the highly pleasing work culture prevailing here, and above all, the practical application of the idea of education as set forth by Swami Vivekananda. Furthermore, the infrastructure for co-curricular activities like cultural meets and competitions and games and sports - that we have access to is adequate and ideal by any standards and we put it to optimal use. The institution is looked after by monks from all perspectives. The quality of strict integrity of their character being inculcated and maintained for long, transforms the community life in hostel to the sacred student life of celibacy and sincerity - with daily spiritual activities being morning and evening prayer, spiritual classes and group meditation academic engagement becomes a way to imbibe the underlying spirit of purity of the monastics administrative relationship becomes a source of rejuvenation to the staff. This holistic vibe of dynamism fuelled by selflessness makes Education - the professional embarkation - to take a living form by bringing out the dormant spirit of freedom and guilelessness from the very character of the individual human soul. This institution started in 1958 with the vision to train a group of budding teachers in the same mould as that of Swami Vivekananda. Accordingly the ancient residential teacher-student relationship has been infused in the very working of the institution. With Swami Vivekananda's ideas on education forming major parts of both B.Ed. and M.Ed. curriculum with a vast soothing greenery adorning the campus with a rigorous daily routine from morning prayer to regular classes to physical activities to evening prayer to group meditation to spiritual discussions to night study with frequent cultural activities with ample opportunities to engage in selfless social services such as - relief activities, green initiatives, cleanliness drives, blood donation camps, free health camps with cutting-edge modern technology and very qualified, caring and efficient teachers with a research and experimentation oriented outlook towards teaching and curricular revision - all to look after the holistic growth of the students from professional, spiritual, physical, mental and emotional perspectives, this institution has been working tirelessly to imbibe the excerpt of Education in their very spirit - Education as a tool for mass upliftment and individual betterment through selflessness - just as brought forth by Swami Vivekananda
