### ANALYSIS:

The above collected data from the faculty members of our college confirm that they strongly agree with the items kept in the feedback form. The highest percentage of strong agreement occurs in item-1, item-2 and item-5. However, in case of other items, agreement occurs consistently. It is also important to note that neither of the respondents found any contradictory item to disagree with. They, further, believe that our curriculum is need-based, well defined and clear, carrying a good poise between theory and practical and supportive for exercising freedom in adopting new techniques in teaching.

### Action Taken Report:

Since all the respondents responded positively, no action was deemed necessary to take.
