Overall Mean is 44.84.

### ANALYSIS:

The above responses collected from the students of M.Ed.(2021-2023) shows us that the majority of them believe that self-discipline and value are maintained in our curriculum. Regarding social, democratic and leadership qualities, the students also strongly agree. Furthermore, they strongly agree with the fact that the present curriculum helps them foster holistic development and prepare for competitive exams. Even the majority of them strongly agree with the fact that our prepared curriculum encapsulates Indian cultural ethos, Swami Vivekananda's values and critical thinking. Nevertheless, the overall mean (44.84) also shows that their feedback on curriculum supports the positive aspect of our curriculum.

### Action Taken Report:

After collecting feedback on curriculum from our students, we came to know a number of gaps where they remained neutral. Regarding democratic values, leadership characteristics, growing warm attitude, all-round growth and NET/SET or CTET exam, the feedback reported 4% neutrality. For choosing any paper in any specific program, neutrality remained 16%. About critical thinking and communication skills, the feedback reported 12% neutrality. It ensured that communication-skill in EPC(2A-2D) was effectively dealt with by taking classes regularly. All these issues were addressed by the principal and the I.Q.A.C. co-ordinator in the meeting of the C.F.P.C. Brainstorming sessions were held to improve on these areas. Later we also discussed all these things with our students to ascertain whether our taken actions were suitable.
