Lecture Method.

Concept-------------- Lecture Method is the most important methods of teaching history.

---It is the oldest method of teaching history – particularly the secondary classes and above .

------According to Johnson -----It is a readymade Presentaion.

Merits or Advantages.

1. It is less expensive.
2. Lecture saves time of the Pupils.
3. It is effective in providing information.
4. It is best tool for motivation.
5. It gives a sense of satisfaction to the students as well as the teacher.

Demerits or disadvantages.

1. It is teacher centred method.
2. There is no scope for Interaction.
3. It is Oral and Verbal.
4. It ignores the basic principles of learning by doing.
5. It does not develop scientific attitude and skill.
6. Experimental side is totally neglected by the teacher.

Suggestion for Better Improvement.

1. The teacher should prepare a synopsis of the lecture and give to it to the Pupils.
2. The teacher must be very careful about the delivery of the lecture.
3. Lecture should be full of humour.

Question.
