(A NCTE recognized Govt. Aided (WB) Autonomous Post-Graduate College under University of Calcutta)
Belur Math, Howrah - 711 202, West Bengal

2.3.4: ICT support is used by students in various learning situations such as

- 1. Understanding theory courses*
- 2. Practice teaching*
- 3. Internship*
- 4. Out of classroom activities*
- 5. Biomechanical and Kinesiological activities*
- 6. Field sports*

1. Understanding Theory Courses:

Our trainee-teachers are always encouraged to use the institutional LMS and Moodle for understanding the theory courses of B.Ed. and M.Ed. An attempt has been made to arrange the courses of B.Ed. and M.Ed. semester wise on our Moodle system. Our students log in their account and use moodle for various learning resources provided by our professors. Our professors refer them to various enriching websites like epg-pathshala, e-gyankosh, videos of eminent professors recorded on vidya mitra channel, NCERT etc. Our students accordingly use them for understanding the theory courses. Besides, our professors also upload relevant powerpoints and pdfs on theory courses on our institutional LMS which is available on our website. Documentary evidence is given to support the claim below.

“Education is the manifestation of the perfection already in man.”

- Swami Vivekananda

2.Practice Teaching:

Before our trainee-teachers are sent to their internship, they are encouraged to use ICT based support for understanding practice teaching. This also helps them clarify their doubts on voice modulation, micro-teaching skills, posture, expressive power, designing lesson plans etc. Our professors upload various relevant links to the moodle for the purpose of practice-teaching. This increases their confidence and orients them to the teaching skill needed for taking a class. Below a link is given to support the claim.

Link to the Page: <http://116.193.128.18:84/moodle/course/view.php?id=135>

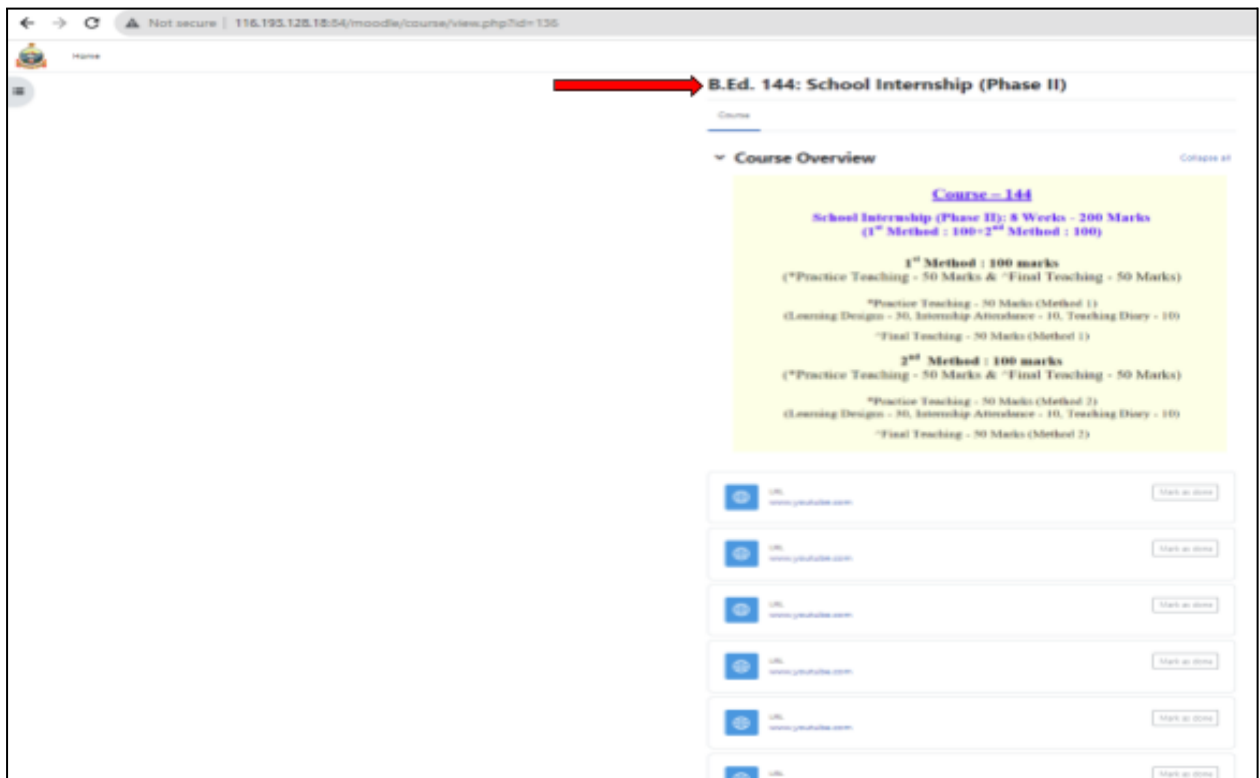

Link to the Page: <http://116.193.128.18:84/moodle/course/view.php?id=135>

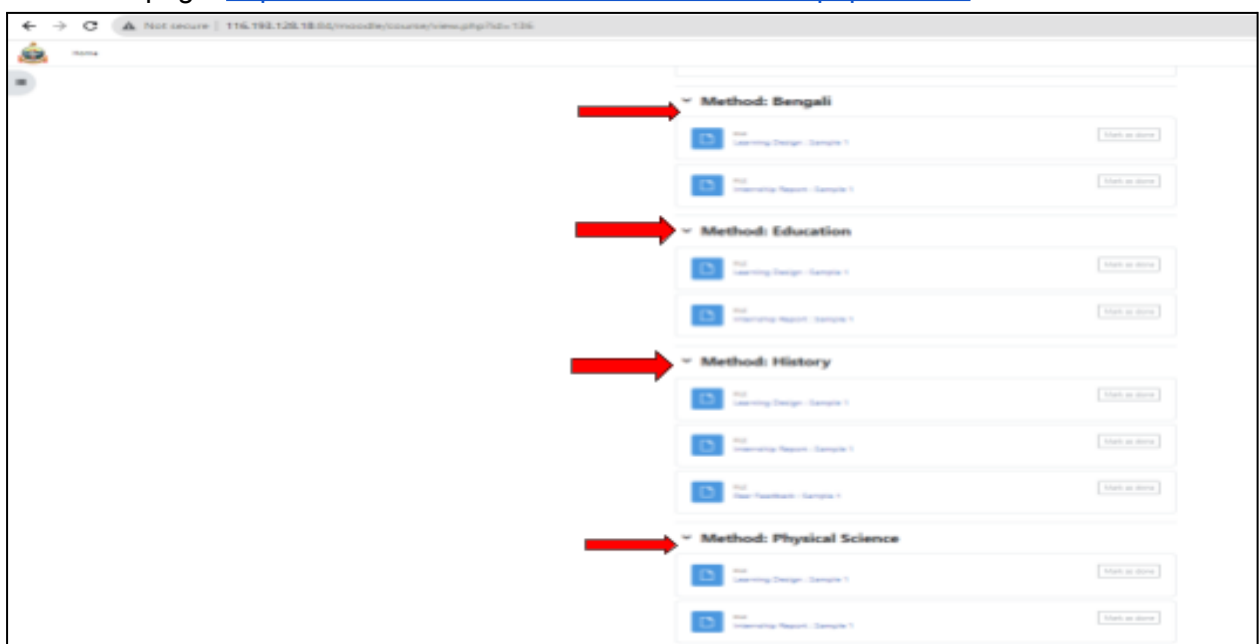

3. Internship:

During internship, our trainee-teachers have to work in different capacities in the allotted school. For this, they need to adapt themselves to different situations arising from teaching and non-teaching work. To have a fair amount of knowledge on those, our trainee-teachers are encouraged to use ICT based materials uploaded on our moodle. Our professors refer them to different online materials, relevant videos for having a prior knowledge of the internship engagement.

Digital Lesson Plans prepared by our trainee-teachers:

LEARNING DESIGN

SCHOOL- UTTARPARA GOVT. HIGH SCHOOL	SUBJECT- CHEMISTRY
CLASS-XI	UNIT- STEREOCHEMISTRY
DATE- 29.03.2022	SUB UNIT –
DURATION- 40 MIN	1. CONCEPT OF STEREOCHEMISTRY
TEACHER- Suman Mondal	2. STEREOISOMER
ROLL NO- F-42.	3. CONSTITUTIONAL ISOMER.
	TODAY'S TOPIC- STEREOISOMER.

LEARNING GOALS/OBJECTIVES

Remembering	a) Students know the concept of chiral carbon and Condition of having Chiral molecule. b) Students know the chiral center and Stereogenic Carbon center-
Understanding	a) Students understand the difference bet? Constitutional and Stereo isomer. b) Students Understand the difference bet and E12 Configuration.
Applying	a) Students can apply their knowledge to identify enantiomer and diastereomers. b) students can apply their knowledge to identify active and meso compound.

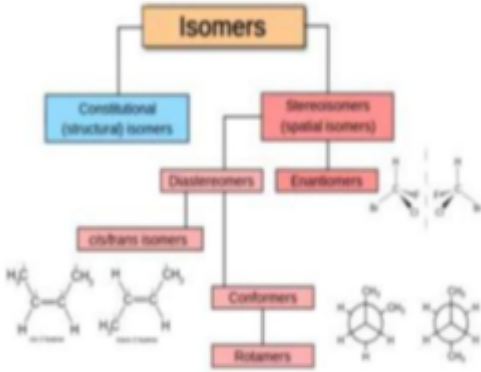

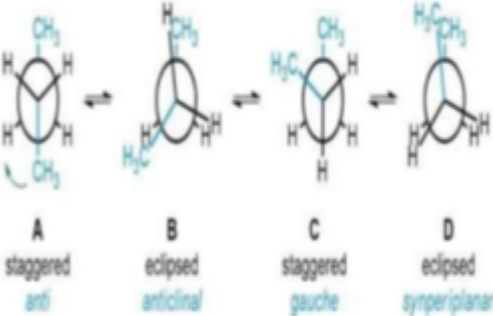

Sample Digital Lesson Plan of Chemistry

TEACHING LEARNING MATERIALS

1. Chalk 2. Duster 3. Blackboard 4. Book 5. Charts and Models.

TEACHING LEARNING STRATEGIES

Concept	Teacher's role	Student's role	Black Board work
Classification of Stereoisomer	<p style="text-align: center;"><u>Lecture cum Demonstration Method</u></p> <p>Teacher will teach the concept of stereoisomers with proper classification and chart.</p>	<p>Students will understand the concept then interact with teacher regarding their doubts.</p>	
Conformational isomer	<p style="text-align: center;"><u>Lecture cum Demonstration Method</u></p> <p>Teacher will teach the concept of Conformational isomers with proper classification and Model.</p>	<p>Students will understand the concept then interact with teacher regarding their doubts.</p>	

HOME ASSIGNMENT

1. How you will separate diastereomeric pair Compounds?

2. Between compound A and B which will be optically active and which one optically inactive and why?

3. What is the difference between Cis/Trans and E/Z isomer?

DIAGNOSIS OF WEAKNESSES FOR REMEDIAL CLASSES

After Evaluation, remedial class will be arranged for weak and unsuccessful students (if any) where the Problem arising part of the topic I will be taught again with effective teaching strategies and more easy and interesting way.

<p>Emanations and Diastereomers</p>	<p><u>Lecture cum Demonstration Method</u></p> <p>Teacher will teach the concept of Stereoisomers with proper classification and chart</p>	<p>Students will understand the concept then interact with teacher regarding their doubts.</p>	
<p>Cis/ Trans and E/Z isomers</p>	<p><u>Lecture cum Demonstration Method</u></p> <p>Teacher will teach the concept of Cis/Trans and E/Z with proper classification and Model.</p>	<p>Students will understand the concept then interact with teacher regarding their doubts.</p>	

DESIGN FOR EVALUATION

1. what is the difference between Enantiomer and Diastereomer?
2. what is the difference between conformational and Configuration isomer?
3. Draw the two isomer of C_2H_6O molecular formula.

Learning Design

<u>School</u> : Uttarpara Govt. High School	<u>Subject</u> : Physical Science
<u>Class</u> : x	<u>Unit</u> : Behavior of Gases
<u>Time</u> : 45 Mins	<u>Sub-Unit</u> :
<u>Date</u> : 05.04.2022	<ul style="list-style-type: none">• Pressure and volume• Boyle's law• Charles's law• Absolute temperature scale• Combination of Boyle's & Charles's laws• Avogadro's Hypothesis & ideal gas
<u>Teacher</u> : Bhairab Singha (F-09)	<u>Today's lesson</u> : Combination of Boyle's & Charles's laws

➤ Learning Objectives :

After completing the lesson the students will be able to

Remembering	<ol style="list-style-type: none">1. Tell the formula of combined gas law.2. Remember that temperature should always be in Kelvin scale.
Understanding	<ol style="list-style-type: none">1. Understand how the formula of combined gas law is formed.2. Demonstrate the formula.
Applying	<ol style="list-style-type: none">1. Solve different types of problem about combined gas law.
Analysing	<ol style="list-style-type: none">1. Analyse how Boyle's and Charles's laws are combined.2. Analyse why temperature should always be in Kelvin scale in that formula.
Evaluating	<ol style="list-style-type: none">1. Evaluate the problems regarding combined gas law.

Sample Digital Lesson Plan of Physical Science

Creating	<ol style="list-style-type: none"> 1. Represent the formula in chart. 2. Apply this formula in higher courses.
----------	--

➤ **Analysing Learners and Context :**

To understand the primary behavior and previous knowledge of the students the following questions will be asked:

1. State Boyle's law.
2. What is the mathematical formulation of Boyle's law?
3. State Charles's law with respect to absolute temperature scale.

➤ **Learning Materials :**

1. Textbook : Physical Science & Environment, class x, Calcutta Book House.
2. Supporting Materials : Chalk, Duster, Blackboard, Chart.

➤ **Learning Strategies :**

Learning Areas	Related Strategies
Combination of Boyle's & Charles's laws	<p>By using lecture and demonstration method with questioning, the formula will be established.</p> <p>Let us suppose, amount of gas = n mole, temperature = T K, pressure = P, volume = V.</p> <p>Q: State Boyle's law.</p> <p>A: The pressure and volume of a gas are inversely proportional to each other as long as the temperature and the quantity of the gas are kept constant.</p> <p>Therefore, $V \propto 1/P$, when n & T are constant (i)</p> <p>Q: State Charles's law regarding absolute temperature.</p> <p>A: The Kelvin temperature and the volume will be in direct proportion when the pressure and the quantity of the gas are kept constant.</p> <p>Therefore, $V \propto T$, when n & P are constant..... (ii)</p> <p>Then from (i) and (ii), it follows that $V \propto T/P$ or, $V = k * T/P$, $k = \text{constant}$. So, $(PV)/T = k$ (iii)</p>

	<p>For an n mole quantity of gas, if volume is V_1 in pressure P_1 and temperature T_1 and volume is V_2 in pressure P_2 and temperature T_2, then</p> $(P_1 V_1)/T_1 = (P_2 V_2)/T_2 \dots\dots (*)$
A simple problem and solution	<p>A problem will be presented in the blackboard and it will be solved by problem solving method.</p> <p>Q: The initial volume of a gas is 6L and its final volume is 3L. Find out the final pressure of the gas such that the initial temperature is 0°C while the final temperature is 200K. Moreover, 25K Pa is the initial pressure.</p> <p>A: Here, $P_1 = 25\text{ K Pa}$, $V_1 = 6\text{ L}$, $T_1 = 273 + 0 = 273\text{ K}$ and $V_2 = 3\text{ L}$, $T_2 = 200\text{ K}$.</p> <p>Then $(P_1 V_1)/T_1 = (P_2 V_2)/T_2$ or, $(25 * 6)/ 273 = (P_2 * 3)/ 200$ or, $P_2 = 36.626\text{ K Pa}$, which is the final pressure.</p>

➤ Design for Evaluation :

1. Derive the formula of combined gas law.
2. Why the temperature should always be in Kelvin scale in that formula?
3. The initial volume of a gas is 10L and its final volume is 20L. Find out the final pressure of the gas such that the initial temperature is 0°C while the final temperature is 373 K. Moreover, 50K Pa is the initial pressure.

➤ Diagnosing the weakness for remedial class :

If students have weakness in today's lesson then remedial classes will be arranged.

LEARNING DESIGN

NAME OF SCHOOL- M C K Vidyapeeth	SUBJECT- Computer Science
CLASS- IX	TEACHING UNIT- Word processing
DURATION- 45 minutes	SUB UNIT- <ul style="list-style-type: none">• Formatting, paragraphs• Alignment, indentation, spacing• Spelling and grammar• Mail merge
DATE-04.04.2022	TODAY'S LESSON- All the above
NAME OF THE TEACHER- Sourabh Kumar (F-27)	

Learning goals / objectives

(Based on revised Bloom's Taxonomy)

Expected behavioral changes of the learner's can be studied under different domains of objectives, as follows:

1. Remembering:

- In MS word paragraph is any text which end with a paragraph mark. These are created when we press the enter key on the keyboard. We can see the hidden characters such as the paragraph mark by using show/hide button in the upper right-hand corner of paragraph group.

2. Understanding:

- Understand the various formatting features for paragraph and fonts to create presentable documents that suits the definite purpose.
- Create grammatically correct documents without any spelling error understanding the spelling and grammar feature of MS Word.
- Understand how some document can be used for sending to different mailing address using mail merge feature of MS Word.

Sample Digital Lesson Plan of Computer Science

		<p>mail merge is useful when we want to send the same document to many people.</p> <p>USING MAIL MERGE</p> <ol style="list-style-type: none">1. Open the word document that you want to use as the letter, greetings, notice etc. the information in the document should not change from letter to letter.2. Click on the mailings tab.3. Click on the start mail merge button.4. Click on letters. Nothing happens on screen, but word sets up for a mail merge5. Click on select recipients.6. Click on to identify the type of recipient list you plan to use. The new address list dialog box appears, displaying the area where you can enter the information. Click on each area and type the appropriate information for each person.7. To enter the information for another person, click on new entry. Repeat steps 7 and 8 for each person to be added to mailing list.8. When you finish creating the address list, click on ok. The save address list dialog box appears.9. Click on save button to save the file.10. Click on edit recipient list. The Mail Merge Recipient Window appears. This area list all the people on your mailing list. Click on check boxes to add or remove a person.11. Click ok.12. Click on the location where you want the address to appear in the letter. Click on address block. The insert address dialog box appear.13. Click on format for each recipients' name and preview it. Click on ok.14. A merge field representing the address block, the greeting line appears in the letter. Click on the location where you want them to appear. Click preview result.15. Word displays a preview of the merged letter using the unchanged content information from address file.	
--	--	---	--

- | | | | |
|--|--|---|--|
| | | <ol style="list-style-type: none">16. Click on next record icon to preview the next letter and previous letter icon to preview the previous letter.17. Click on finish and merge.18. Click on edit individual documents. The merge to new document dialog box appears. Choose the radio button to specify which people from your mailing list, you want to create letters for (All / current / from)19. Click on ok to create letters. Word opens a new document and creates the personalized letters in the document.20. Scroll through to see all the pages of your mail merge. | |
|--|--|---|--|

Design for evaluation

1. What is a paragraph?
2. What are the various alignments available for a paragraph?
3. What do you mean by alignment?
4. What is indentation?
5. What is a spacing?
6. What is mail merge? Why is it used?
7. Fill in the blanks:
 - a. _____ view displays a webpage preview of your document.
 - b. We can drag zoom button in the _____ to zoom in and drag zoom button in _____ to zoom out the document.
 - c. Macro function is available in _____ tab.
 - d. Save, undo, redo options are present on _____ bar.

4.Out of Classroom Activities:

For performing various works apart from teaching, our trainee teachers are also encouraged to use different creative activities using our moodle. Our teacher-trainers provide them with various links and videos to prepare for anchoring, visual and performing arts, music, drama, handicrafts etc.

The screenshot shows a Moodle course page for "B.Ed. 115 Visual and Performing Arts in Education - 1". The page is titled "Course" and has a "Collapse all" link. Under the "General" section, there is a "Forum: Announcements" link. Below that, there are three units: "U1: Drama and its Fundamentals", "U2: Music (Gayan and Vadan)", and "U3: Drawing". Under "U3: Drawing", there is a "File: Visual arts" link with a "Mark as done" button. Below that, there is "U4: Painting" with two links: "File: History of Painting bengal art tradition" and "File: Kiplight Painting", both with "Mark as done" buttons. At the bottom, there is a "Practicum" section.

Link to the page: <http://116.193.128.18:84/moodle/course/view.php?id=22>

The screenshot shows a Moodle course page for "B.Ed. 125: Visual and Performing Arts in Education - 2". The page is titled "Course" and has a "Collapse all" link. Under the "Course Overview" section, there is a highlighted box with the text "Course - 125" and "Visual and Performing Arts in Education - 2 (50 Marks) (Theory: 30 & Practicum: 20)". Below that, there is "Unit II: Creative Art" with three links: "File: Unit II-0: Displaced Play Choudhury", "File: Unit II-1: Sankshita Bag", and "File: Modern Indian Sculptor", all with "Mark as done" buttons. At the bottom, there is a "Practicum" section with two links: "File: Practicum Assignment: Sample 1" and "File: Practicum Assignment: Sample 2", both with "Mark as done" buttons.
